

Vacancy announcement for the position of Data Engineer/Analyst

ISDM

Location: Noida

Reports to: Chief Digital Officer

Position: Data Engineer/Analyst

About ISDM

Established in 2016, the Indian School of Development Management (ISDM) is an institution that recognises that the development space urgently needs the application of management tenets to professionalise and optimise the billions of dollars invested for social impact. ISDM envisions establishing Development Management as a transdisciplinary domain and an aspirational choice for professionals in the development sector.

Key Responsibilities

- Understand and analyse data to drive business insights for various functional teams.
- Perform root cause analysis and problem solving with teams.
- Provide high quality reports to the management and business stakeholders.

Educational Qualifications and Experience required

- 5-6 years of experience in Application Management and support.
- Expert in data visualization tools and techniques.
- Very strong analytical and problem-solving skills.
- High proficiency in PL/SQL, Excel, Tableau.
- Experience in Machine Learning preferred (Python etc.)
- Good communication skills and the ability to be a team player.

Please send in your applications to people@isdms.org.in. Remuneration shall be commensurate with experience and qualifications.

ISDM is an equal opportunity organisation with a particular emphasis on affirmative action. The culture of the organisation is one of professionalism while also one that greatly values relationships.
